EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard P. Bauer on 08/16/2004.

The application has been amended as follows:

The claims:

Claim 1: line 4, delete "a channel" after "comprising" and insert -- an open channel-- ; line 6, insert -- open -- before "channel".

The specification:

Paragraph [0025], line 3, delete "transfers" and insert --transfer--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Note that Examiner's amendment and Applicants' amendment are sufficient to overcome the art rejections and sufficient to place the application in condition for allowance. The foam pad comprising an open channel that has a first section, a second section, and a third section disposed serially along the longitudinal axis wherein the second section has a narrower width than the first and third sections when measured in a direction perpendicular or orthogonal to the longitudinal axis renders the instant

claims unobvious over the prior art. Such a design allows the trim cover snugly secured to the foam pad so as to provide the best fit for the vehicle seat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The corrected drawings were received on 05/20/2004. However, new corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the label "prior art" is not uniformly thick and well defined. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
